### User Defined Phrases Table

Audio File Name	Text to be Recorded
clock-tick-short.wav	
createenroll-0000.wav	The enrollment process analyzes your voice to create a baseline that will be used for future verifications. The process requires a minimum of 3 successful enrollments. Be sure to speak in a clear voice during the enrollment process..
createenroll-0001.wav	When you're ready to begin the enrollment process, press any key.
createenroll-0002.wav	When you're ready to continue the enrollment process, press any key.
createenroll-0003.wav	The enrollment was successful.
createenroll-0004.wav	The enrollment was not successful. Let's try that again.
createenroll-0005.wav	That completes the enrollment process for this phrase. You can now test the verification system. If you would like to continue to the verification system,

please press 1.

If you would like to improve the accuracy of your voice biometrics, and perform additional enrollments, please press 2.

createenroll-  
0006.wav

left to complete.

createenroll-  
1001.wav

Only one enrollment

createenroll-  
1002.wav

Only two enrollments

createenroll-  
1003.wav

There are still three enrollments

createuser-  
0000.wav

It appears this is the first time you're calling. Let's create a VoiceIt profile for you and begin the enrollment process.

createuser-  
0001.wav

A VoiceIt profile has been created and associated with this telephone number. Future calls from this number will automatically associate with this profile.

createuser-  
0002.wav

Now that we have a profile, the next step is to complete the enrollment process. Let's do that now.

createuser-  
0010.wav

We were unable to create a VoiceIt profile.

getenroll-  
0000.wav

Enrollment has been completed for this VoiceIt profile.

getenroll-  
0001.wav

It appears you have not completed the enrollment process. Let's complete that now.

main-  
0000.wav

Hello and welcome to the VoiceIt demonstration program for Avaya Orchestration Designer.

main-0001.wav	Goodbye.
main-0010.wav	Please try again later.
main-0011.wav	There was a problem interacting with the VoiceIt biometric system.
main-0012.wav	Please check the logs for more information.
record-0000.wav	After the tone, please say the phrase.
record-0001.wav	I'm sorry, but I didn't catch that. Let's try this again.
verify-0000.wav	You are about to begin the voice verification process. When prompted, please repeat the given phrase in a clear voice.
verify-0001.wav	When you're ready to begin the verification process, press any key.
verify-0002.wav	You have successfully verified.
verify-0003.wav	Verification failed, please try again.
voiceitstd-001.wav	Deactivate security system now.
voiceitstd-002.wav	I like to watch horses run around the track.
voiceitstd-003.wav	Zoos are filled with small and large animals.
